

IT'S A QUESTION OF CHOICES

The Liberal government claims that we don't have any choice, that Quebec is in the red, that we are ageing too fast, that we need to slash services, turn more and more to privatisation, cut social spending, and bill us for everything.

However, progressive alternatives that are realistic do exist.

Solutions that embody Quebecers values of solidarity and sharing the wealth.

A fair budget: IT'S A QUESTION OF CHOICES!

Because turning to user fees are unjust and will only increase social inequality and impoverish the middle class. We say NO to the Health Tax and to increases in tuition fees.

Fairer measures do exist. Increase taxes on the incomes of the wealthiest. Increase corporate taxes, particularly those of the mining companies and banks that are making billions in profits.

Redistributing the wealth : IT'S A QUESTION OF CHOICES!

Universal and accessible healthcare, equal access to a quality education, a decent income and a good job, equality between women and men, protecting the environment, these are OUR RIGHTS. We can protect them: IT'S A QUESTION OF CHOICES!

Demonstrate March 12th in Montreal !
Meet at 12 PM
